

LASER TATTOO REMOVAL POST CARE GUIDE

POST VISITING TATTOO REMOVAL INSTITUTE

FIRST 24-48 HOURS:

Apply **TRI To-Cool Pack** (ALT: cold compress) & elevate the area to reduce discomfort & inflammation.
Continue wearing a clean dressing.

Physical activity, hot showers & saunas.
Avoid using makeup, creams, or medications on or near the treated area.

AFTER 48 HOURS:

Apply **TRI Post Laser Gel** (ALT: antiseptic ointment) to treated area.
Change dressing daily & keep area clean.

Taking Physical exercise, heavy activities for at least 2-5 days after treatment.

1-2 WEEKS:

Keep the treated area clean & dry while it's healing.

Regularly apply **TRI Post Laser Gel & TRI Defence Cream** (ALT: High SPF cream) to treated area.

Direct sun exposure, hot tubs, pool water, salt water & high pressure water until the treated area has healed.

SIDE EFFECTS:

A few potential side effects & tips on how to care for them:

Blisters: Don't pop or pick. Continue to apply **TRI Post laser Gel**.

Scabs: Don't pick, peel or remove - this may result in scarring & infection. Let scabbing fall off naturally.

Itchy: Don't itch. Apply **TRI Post Laser Gel & TRI To-Cool Pack** to ease sensation.

We love zapping tats at Tattoo Removal Institute—and it shows. Our team is always here for support so don't hesitate to contact us if you have any questions or concerns pre or post your laser tattoo removal session.
